

# DARLYN R. LORA

---

Major: Psychology

Global Effect ID: GE201911

"I chose the career path of Psychology, because through it I can help my parents get ahead. The greatest influence in my life has been my grandfather, because through his example, he has helped me to be a better person. He is a hardworking, always positive person. Despite the difficult times he went through, he always has a smile. The most important value that marked me in the Global Effect Leadership Program was honesty. I always try to be as honest as possible, and I know that to achieve my dreams this value will help me a lot."
