

JEREMY B. REINOSO

Major: Civil Engineering
Global Effect ID: GE201923

"I've always been interested in studying Civil Engineering. After graduating college, I would like to set up my own real estate company. The greatest influence in my life has been my father. As long as I can remember, I have seen him as my role model through his character, his leadership and who he is. One of the biggest challenges in my life was when I fell and broke my left leg, but thank God that I'm okay."
