

JULIO C. VALERIO

Major: Computer Science

Global Effect ID: GE201927

“Success is the result of our hard work and effort. I chose the career of Civil Engineering, because it's a way of expressing my imagination, creativity and learning to make an impact. The greatest challenge I've had to face in my life was the death of my father when I was 6 years old, something I will never fully overcome and have had to face through these years of my life. Another difficulty was an accident in 2017 from which I thought I was going to lose my life. It was a very difficult process, but it was something that marked me and taught me to never lose hope.”
